- Make Her Mine

Make Her Mine

There's a girl
Seen her walkin' down the street
Many times
and man, she looks so fine
Looks so good
And I want to be with her
All the time
So I gotta make her mine

※ Gotta make her mine
Woo-wooh
Never felt like this before
Always standin' by my door
To see her passin' by

Don't know why
I see her walkin' by
I feel this way
I must see her everyday

※

She came by
And I talked to her today
It's all right
And we're gonna meet tonight
Love this girl
And I want to be with her
All the time
So I gotta make her mine

※

There she is
And she's walkin' down the street
Right on time
How I'm gonna make her mine
